SKILLS

Programming	Python, C/C++
Computer Fundamental	Operating System, DBMS, Data Structures and Algorithms, Computer Networks and Protocols.
Web Development	HTML, CSS, JavaScript, MERN, API Building, SQL, NoSQL.
Technical Skills	Machine Learning, Deep Learning , LLM, LangChain, LangGraph NLP, and Gen AI.
Soft Skills	Time Management, Problem-solving, Documentation, Engaging Presentation, Leadership, On-site coordination.

PROJECTS

- AI Medical RAG Chatbot** – Using FastAPI, LangChain, Pinecone, Groq Sept 2025 - Oct 2025
- Built a medical Q&A chatbot using RAG, integrating LangChain for document processing, Pinecone for vector search, and Groq LLaMA 3 for generation.
 - Designed and deployed a scalable FastAPI backend deployed on Render, enabling secure and efficient handling of medical PDFs and user queries.
- AI Research Assistant** – Using LangGraph July 2025 - Aug 2025
- Built an AI Research Assistant using LangGraph to orchestrate a complex agentic workflow.
 - It's an autonomous AI agent that can browse, analyze, and export academic research — all by dynamically using the right tool at the right time.
- AI Agent Chatbot** - Using FastAPI, LangGraph, Langchain July 2025 - Aug 2025
- Architected and engineered a full-stack GenAI chatbot, developing a scalable FastAPI backend with RESTful endpoints and an intuitive Streamlit front-end for a seamless user experience.
 - Implemented a sophisticated AI agent using LangGraph with dynamic model selection, creating a stateful reasoning architecture to handle complex interactions and demonstrate end-to-end AI pipeline integration.
- AI Mock Interview App** – Using React, Drizzle ORM, Gemini AI, and Clerk Jun 2025 - July 2025
- Developed a full-stack AI-driven mock interview application using Next.js, React, PostgreSQL with Drizzle ORM, and TailwindCSS, integrating Clerk for secure social and email authentication.
 - Implemented AI-powered interview features with Google Gemini API, including automated question generation, speech-to-text response recording, and deployment on Vercel for scalable cloud hosting.

EXPERIENCE

- Codeit Raipur, Research Intern** | On-site (Raipur) July 2024 - Aug 2024
- Conducted in-depth research on Artificial Intelligence and various Deep Learning models to develop innovative solutions.
 - Specialized in Natural Language Processing (NLP), focusing on sentiment analysis and deception detection techniques.
- ACM Student Chapter, Tech Team Member** | MITS Gwalior Mar 2023 - May 2025
- Played a key role in organizing and executing various tech events, ensuring smooth operations and active participant engagement.
 - Designed and managed coding competitions, fostering a competitive environment that encouraged skill development and innovative problem-solving among students.
 - Developed and conducted coding quizzes, assessing and enhancing participants' programming knowledge and analytical abilities through challenging and interactive formats.

EDUCATION

Madhav Institute of Technology and Science, B.TECH in Information Technology(Artificial Intelligence and Robotics) Gwalior(M.P.)	CGPA: 7.23 / 10.0	2021- 2025
New Jain Higher Secondary School, MPBoard, Class 12th Vidisha(M.P.)	Percentage: 85.2%	2021
Trinity Convent Senior Secondary School, CBSE, Class 10th Vidisha(M.P.)	Percentage: 85.8%	2019

Certificates

Machine Learning Specialization, Coursera DeepLearning.AI, Stanford University.	2024
ROBO AI, A 30+ day industrial training on robotics automation and software simulation with AI Organized by MyEquation, Tech Analogy.	2024
Participated in 24-hours In-person Hackathon, AceHack 2.0 at UEM Jaipur.	2023
Runner-up in 7-Aside National Football Tournament, Indian Mini Football Association Madgaon, Goa.	2018
